

Is providing the venue for some

Quiltworx Workshops with Margaret Olive

At Yeerongpilly Qld

Margaret is born and raised in the Rockhampton area on a cattle property.

Margaret's shop, Patchwork Paradise Studio Rockhampton has been a Quiltworx Certified Shop since 2012 and has been qualified as a Quiltworx Approved Certified Instructor since 2014. She has done 3 workshops with Judy Niemeyer, the designer of Quiltworx Patterns (www.quiltworx.com) and has been given permission to teach Judy's technique of Foundation Paper Piecing in Australia and New Zealand.

Her qualifications also means Margaret is qualified to teach those who are new to the process or to those wanting to become Quiltworx teachers themselves.

Margaret is offering two 2 day workshops to introduce you to these methods as you learn the fundamentals of this system, and you can choose from the styles shown in the photos below.

You can choose to make a full set of placemats/table runner in a 2 day workshop or start two different sets in the two days and finish them at home.

If you are wanting to embark on a bigger project, you could book for all four days to achieve all you need to learn to complete your masterpiece.

For this, you will need to visit Judy's website at www.quiltworx.com and look at the pattern options, then let me know your preferences (by name) giving 1,2 or 3 options as we will need to confirm availability of the pattern for the workshop.

Classes will be held at Yeerongpilly in my studio at 12 Palomar Road.

1. Thursday 26th & Friday 27th July 2018
2. Sat 28th & Sun 29th July 2018

Class will run from 9am—4pm each day with ½hour lunch break.

Cost of a 2 day workshop is \$140 or 4 days for \$250

plus the cost of your pattern and or kit of fabric which will vary depending on the project you choose.
