

Cupboard to Creativity 2021

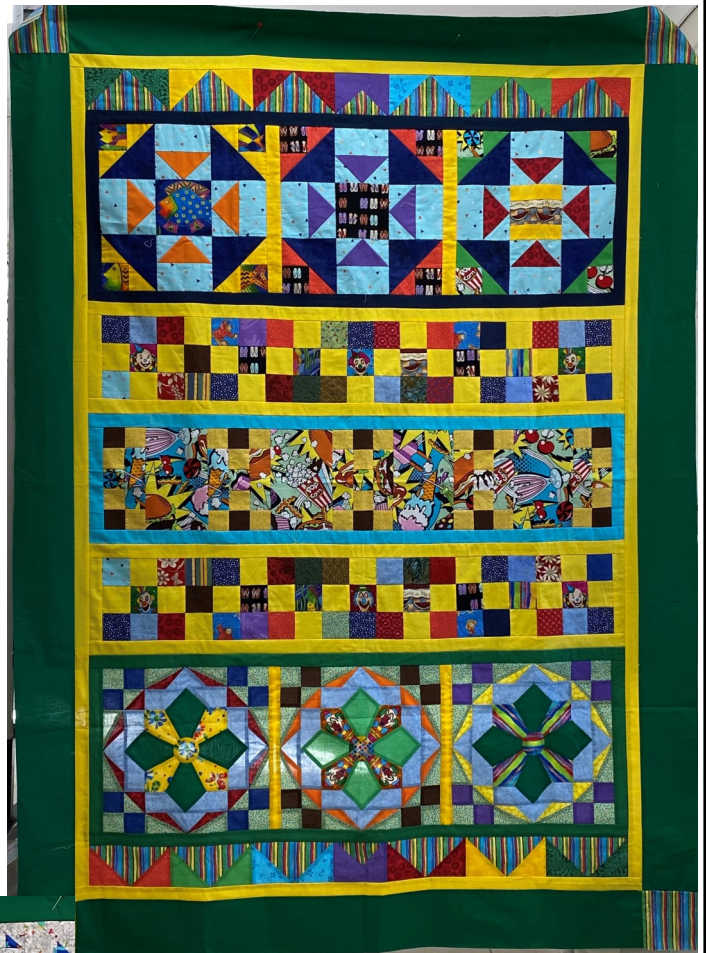

May Update.

Hi Everyone,

Well from the photos you will see I have completed one of the quilts →

For the May row I added a single row of Flying Geese to the top & bottom of the quilt and that gave me enough length to complete this quilt as I wanted to frame with the yellow and finish with the green. I had enough of the stripe to add that to the corners to bring the colour to the edge.

For my "Grey" quilt I chose a zig zag row of Flying geese. I foundation pieced the sections with the geese then added the triangles to complete the row. I attached the row to the quilt just using the green between, but since then I have made up more Shoo Fly rows to add in & I will share that in the photo next month.

The grey quilt will be long enough after I do a row next month plus a border.

I hope you are having fun playing with your scraps — I know I still have quite a few pieces left from these two quilts — not to mention the dozens of boxes of fabric waiting for my attention!

See what happens next month:)

Happy Quilting

Jan P.
