

From Cupboard to Creativity Project August 2021 - Row by Row Quilt

Theme this month: Delectable Mountains

Hi Everyone,

I am keeping the theme around the more traditional blocks, all be it you can add your own twist and more modern interpretation :)

Today there are different approaches to the making of the delectable mountain block and several blocks that are identified by this name, each slightly different to the others.

Other blocks that have a similar shape would be Kansas Trail & King Solomon's Temple shown here

To help decide your design layout I have added a couple of ideas I found where others have made the delectable stars (by Brenda Henning) by combining different block ideas from and a table runner from Vicki's Craft & Quilting which used the strip method rather than the traditional

Basic block

star centre & on point

King Solomon's Temple

Kansas Trail

Have fun coming up with your row for this month, using the Delectable Mountains block as your inspiration.

Stay well, be kind to each other &
Keep quilting.

Jan P
