

## Cupboard to Creativity 2022 May Update.

Hi Everyone,

May has been quite a productive month for me—I hope you have also had time to enjoy your quilting.

I recently had a wonderful weekend away with a group of friends and managed to progress several projects, and also completed some more tops, —————→  
including the April challenge by adding a panel to the top & bottom. ←

It is great to see other colour combinations of the April Challenge and how the arrangement can give many options to the use of this block.

Here are 3 ways with the blocks made by Desley G. —————→

For the May Challenge I decided to make my block much larger than the given pattern sizes, and have now made another panel with just 4 blocks, which is ready to add a top and bottom feature to complete it as a gifting quilt. —————→

I have enjoyed seeing another of the May challenges take shape—hopefully I will have pics to share next time.

Stay safe and well &  
Enjoy your Quilting.  
Jan P
