

From Cupboard to Creativity Project

May 2020 - A border with a heart theme.

Hi Everyone,

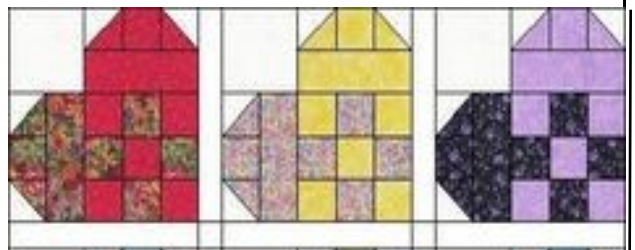

We are in our 5th month of our Borders challenge.

If you haven't started the borders challenge but would like to, you can decide to make a row by row quilt using each month as a row. Choose the width you would like a quilt eg. 40" (I would make it small enough that a plain border could be added to finish) then make all your rows that long. The height of the row could vary depending on the theme and what you interpret that as.

Have fun playing with the ideas. I look forward to seeing some results.

This month the theme is around the **Heart**, so you could choose:

- A. something to applique.
- B. A pieced border that contains "hearts"
- C. Something that expresses a heart felt message eg:
embroider a verse

Have a month that fills
your heart with JOY

Jan P.
