

From Cupboard to Creativity Project July 2020 - "Embellishment or Embroidery".

Hi Everyone,

For this month I think it is time to play with creating a border that includes either embroidery or some other style of embellishment

- this could be adding Sashiko, Stitcheries
- adding yarns, lace or buttons and charms
- hand or machine methods.

I see a whole range of possibilities—here are a few glimpses from others that may inspire you—some modern, others traditional — create something you enjoy.

I look forward to seeing what interesting ideas you come up with this month.

Wishing you a month that brings you joy in your life.

Jan P.
