

From Cupboard to Creativity Project Sept 2020 - "Celebrating Spring".

Hi Everyone,

For this month as we welcome Spring, I have decided it would be lovely to reflect the wonderful things about Spring & what it means to us and create a border celebrating that.

I feel for you if you suffer from allergies in Spring, and recognise it may not be your favourite season because of that, however I am sure there are many things that Spring brings that are worth celebrating.

The natural beauty of spring flowers, or the many signs of new life we see in Spring.

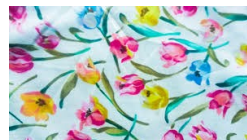

The warmer weather returning, brings more family outings or holidays, major events like Toowoomba Carnival of Flowers, weddings etc.

Think about what Spring means to you and then create a border that reflects that.

You may choose to use imagery or just the colours and fabrics that feel like spring to you

Here are a few images to get you thinking :

—new life, celebrations of nature, celebrations through music are all around us at this time of year — baby Animals (so much cuteness) produce, flowers etc

I always feel spring is a happy time so this month brings lots of possibilities for you to get creative.

Wishing you a month that brings you joy and wellness in your life.

Have fun.

Jan P.
