

## Cupboard to Creativity 2023

### February Update.

Hi Everyone,

This year is going quite quickly for me, however I have managed to get quite a bit done.

I have finished another quilt top, currently at the quilter, so I will share that next month with the finished photo.

I have also made a special quilt as a gift and as that is being gifted in a week or so, I will share that next month also.

My challenge piece from Feb—Pointed Oval.

← My border blocks were 6" finished.

I had a play with the pointed ovals, and decided to create a dragonfly for my centre as well using the shape in the border.

I have made the video & PDF on the dragonfly centre I made using the pattern shape, and it is in the free tutorial section on the website.

If you haven't already, create an account on the "My Account" page on my website, and you will have access to the free video tutorials. This way they won't get lost among the challenge blogs.

I have made 2 of the larger inter weaving blocks →

I have appliqued all my shapes with a small zig zag & I used machine embroidery thread for the sheen it gave.

I hope you have had fun playing along and discovering new ways to use all or part of this block.

Happy quilting,

Jan P
