

Four Patch or Feature Block with Partial frame

This month I have some travel plans, so I have chosen a very simple block that can be made fairly quickly, and in many different sizes, so it is adaptable to many varied projects.

Use the 2 blocks above together, or independently, or maybe mix different sizes of the block in one project.

Pick one of these size options, or make up your own:

1. Feature Square cut $3\frac{1}{2}$ ", four patch squares cut 2" & small squares cut $1\frac{1}{2}$ " for a block size of 4" ($4\frac{1}{2}$ " including seam allowances)
2. Feature Square cut 5", four patch squares cut $2\frac{3}{4}$ " & small squares cut 2" for a block size of 6" ($6\frac{1}{2}$ " with seams)
3. Feature cut $6\frac{1}{2}$ ", four patch squares cut $3\frac{1}{2}$ " & small squares cut $2\frac{1}{2}$ " for a block size of 8" ($8\frac{1}{2}$ " with seams)

Try different layouts of the blocks to create a pattern, or change the colour placements to create more designs.

Have fun playing during the cooler weeks in June.
