

Cupboard to Creativity July 2024

Playing with stripes

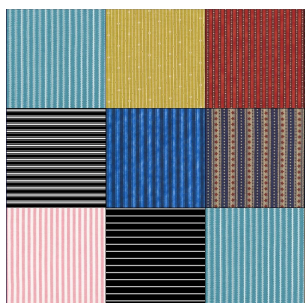

For the month of July, there is no block design, rather a theme for you to explore.

For this month you could use 1 stripe fabric along with plains, or use several stripe fabrics along with some plains (optional) to help with block or layout design.

If you don't have a stripe fabric, maybe create your own out of fabrics you have had for some time & would like to move out of the cupboard.

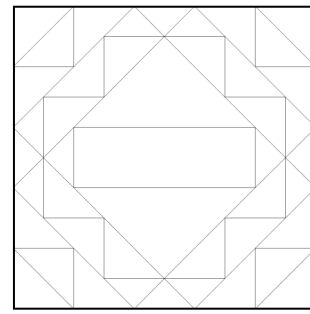

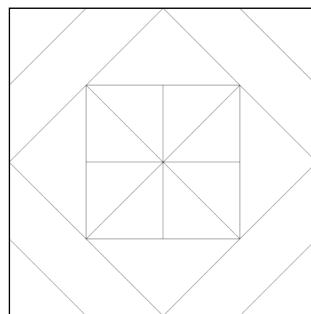

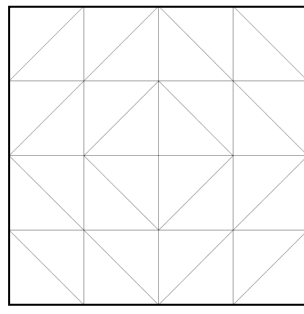

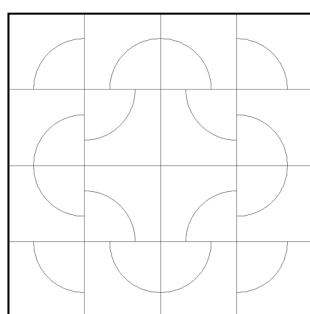

You can create a design using 1 block repeated (it could be as simple as squares of different stripes sewn together), or using the stripe in different ways in the one block design.

You may prefer to try a sampler of many different blocks, all using a stripe fabric in some way — Choose an idea that suits your fabrics best.

Simple squares, on point or improvised versions

OR: Choose a block of any design, repeat it or enlarge as the whole quilt. It could be curved, half square triangle, pinwheel or something more complex, then colour it with stripes and plains—designs below are here as suggestions only

Have fun playing with the theme this month.
