

## Cupboard to Creativity Dec 2024

At this busy time of the year, like in the past years, I prefer not to set a challenge theme for December. I would rather you spend the precious sewing time you do have this next month, finishing off the projects you have started through out the year.

If you have time you could perhaps be making small Xmas themed items such as placemats, tree ornaments etc. as these are always fun to make and are lovely gifts for family or friends. There are lots of lovely ideas in magazines and of course online to inspire you, below are a couple that I spotted with looking for only a couple of minutes.

Imagine decorating a bespoke timber tree like the one below, with some fun ornaments you had made, or setting your table with a new range of placemats.

Have fun,

Have a very Happy Christmas & I will catch up again in 2025 with a new challenge.

Best wishes Jan P.
