

October 2026

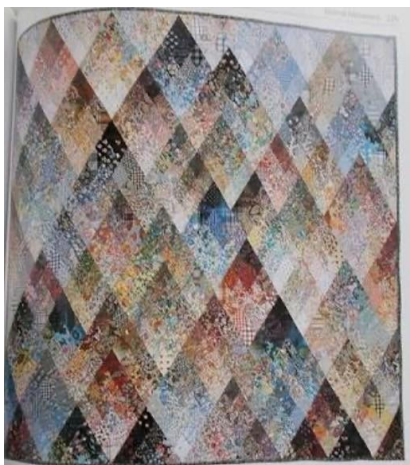

Hi Everyone,

Strip Pieced Colour Wash

For October, I have pulled out this colour wash quilt (Purple one) that needs to be completed - I have decided to add a border to bring it up to a size I find practical - approx 50" x 70" , so I thought Colour wash could be our theme this month. There are many ideas using this style of pattern creating, and I have book by Deanna Spingola that I bought while on a retreat in 1997 that I have always admired.

These two quilts use colour washed squares in different ways. The dark one has 1 block style rotating, the red one has 3 different block styles to make the pattern

This design uses a diamond block shape in different sizes and arrangement to create its pattern. Whereas, this design has squares forming a diamond shape.

Have fun creating your own colour wash this month.

Jan P
